In Memory of Mrs. Susan C. Green.

Death, the dark winged angel, has nvaded our community and for his victim chose one whom we least expected and it seems could least spare one among the most loving and de voted of wives, and kind an affectionate of mothers. But alas! death selects a shining mark.

Mrs Green was the wife of Hon. Wm H Green, of Livingston county, Ky., and daughter of the late Col. Richard and Kittie Miles, and was born at the Miles homestead, same county and State, 31 miles south of Salem, on the 27th of May, 1838, was married to Wm Il Green Dec. Mrs J. A. Our readers have doubtless noticed the numerous discusions by the scientists and hygienists as to the relative value of the rarious baking powders. A carefu sitting of the Powder in purity, wholesomenes and strength, from a scientific standpoint. An opinion, however, that will weigh heavier than any other with our practical housekeepers, is that given by Marion Harland, the best known and most popular of Americans writers upon matters pertaining to the domestic economy, of house keeping, and home cooking. In a recent letter to the Philadelphia Ladies Home Journal, this writer says:

"I regard the Royal Baking Powder as the best manufactured and in the market, so far as I have had any experience in the use of such compounds. Since the introduction of it into my kitchen, three years ago, I have used no other in making biscuits, cakes, etc., and have entirely discarded for such purposes the home made combination of one-third soda, two-thirds cream of tarter.

PROTECTION OR TARIFF REFORM. Beyond question the tariff is the issue upon which the coming camsaign will be ought, and it behonves every citizen who would vote intelligently to inform him off upon a subject which so closely affects his temporal welfare.

Gen Leib's Book, The Protective Tariff,

What It Does for Us:

ion. It will serve as a Taciff primer for the learner and a text-book for the learned. This book shows the practical effect of the Protective System upon the country. Perhaps the most distinguishing feature of the book is its exact alignment with the dessage of President Cleveland.

The position of Mr. Blaine's "Twenty Years in Congress" is taken up, his assertions upon the tariff analyzed, and make to farmish their own refutation.

Indorsements:

The form as well as the substance of the book is most admirable, and I have seen The form as well as the substance of the work of aprending the truth among the ching surpassing it for use in the great work of aprending the truth among the DON M. DICKINSON, Postmaster-General. It is an able and logical exposition of the injustice and delusions of the protec-

ive theory. The work is timely and a very ve table contribution to the literature of tariff reform. We take pleasure in giving this work our hearty endorsement and recommend to

ocal committees and clubs to assist in extending its circulation.
